Here it is once again! Back to playing Ren after 2 months of no show and I am accused!!! YES! This one is very funny though and quiet complimentary as well. I was actually wondering when I was going to be accused of cheating since I began replaying Ren on Tuesday (Apr 6). I guess it was 3rd time lucky...Thursday lol.

I thought this was funny and will share considering the lack of Renegade-related topics.

So I am GDI/Hourglass/Hotwire/n00bstories AOW

I was teching on the right side...initially Typhoon's med, xx's MLRS and someone else's Mammoth.

I found a remote spawn at the rock and took it. Since Sakuras were coming in thru the tunnel to kill me, I put my grand total of 3 remotes at the entrance. I alternated between teching and checking the tunnel for any saks (isn't this a normal thing to do?).

then, boogiemanii showed up at the tunnel but saw my remotes and turned away. I lol'ed to myself and said this in all chat:

Quote:[16:50:12] ATHE1ST: lol boogie

Sometime later 2 sakuras showed up, the Overo crybaby and another Sak. Overo tried to go for it not knowing I was behind the rock...lol...pwned. And so the crying began:

btw, I did not even know he was accusing ME...the fighting was fierce on the right side and I did not read the All Chat. After I got him with the remotes, I went back to teching and completely missed his rant. After I killed him I said this:

Quote:[16:50:23] ATHE1ST: lol

Then went back to teching and missed this:

Quote:[16:50:41] Overo: how did you know i was coming

[16:50:53] Overo: you are reping tanks and ran to the tunnel?

[16:51:14] Overo: thats bullshit, you knew i was looping around and now your back to repairing tanks?

[16:51:20] Overo: rgh

[16:51:48] boogiemanii: yeah

I don't know to who boogiemanii was responding to. If he also agrees with Overo, then its kinda

sad cuz yesterday I was skullraping his Gunner with BH sniper on Hourglass tunnels. He even complimented me yesterday when I was killing him lol:

Anyway, Nod eventually overcame our right side with Stanks and I got a Havoc to snipe in tunnels.

That's when I noticed that Overo had been accusing ME all along.

LOL

So here goes:

Quote:[16:55:36] Overo: lol i know you cheat

[16:55:42] Overo: no one gets to cheat here for long

[16:55:44] ATHE1ST: LMFAO

[16:55:45] Overo: *cheat name removed*fucker

[16:55:50] ATHE1ST: lmfao

[16:55:55] Overo: you see names thru the walls

[16:56:05] Overo: i can tell by the things you do

[16:56:11] ATHE1ST: lol this will make a new thread at renforums lol

[16:56:22] Overo: i can tell by the things you do

[16:56:29] Overo: special *cheat name removed*things

[16:56:53] ATHE1ST: lol man...i didn't know u were accusing me lol

[16:56:55] Overo: like knowing im coming around behind you, stoping repairs and waiting for me to step on remotes

So he was still angry about me killing him lol with remotes!

Quote:[16:57:19] ATHE1ST: lol i was expecting saks to come thru there lol

[16:57:25] ATHE1ST: keep talking

[16:57:38] Overo: thats the common problem with remote traps man, you cant watch the remotes all game

[16:57:42] Overo: is that what you did?

[16:57:54] Overo: you watched that tunnel for me to come down it?

[16:57:55] ATHE1ST: Overo u suck at this game lol

[16:57:57] Overo: waited all that time

[16:58:14] Overo: your pulling stright from the cheater playbook man, everything you say

[16:58:24] Overo: tell me to stop crying now

[16:58:26] ATHE1ST: lolol i am lmfao right now

[16:58:34] Overo: wait till you get banned for 71 meters

[16:58:36] Overo: ;)

[16:58:42] Overo: keep checkin chat

[16:58:52] Overo: make sure you dont miss anything and accidently refill

[16:58:54] Overo: plz

[16:59:03] ATHE1ST: lol

And then it got REAL COMPLIMENTARY...made me smile.

Quote:[16:59:38] Overo: i thought you cheated a week ago man, always with the helicopter
[16:59:48] ATHE1ST: yeah I fly
[17:00:04] Overo: thing about flying is, its really hard because ppl come from everywhere
[17:00:05] ATHE1ST: lol this is getting very interesting lol
[17:00:11] Overo: no troiuble with *cheat name removed*tho
[17:00:59] Overo: time will tell dude, always does, you cant keep seeing everything thru the walls and do nothing ;)

Then he stopped. By this time I decided I was gonna make a nice fat thread lol at Renforums and n00bstories.

Quote:[17:02:03] ATHE1ST: so Overo anything more u wanna add?
[17:02:27] Overo: i dont care who you are, or where you come from, cheating is cheating
[17:02:33] Overo: : D
[17:02:53] ATHE1ST: lol...time to make thread

lulz!

As to why I restarted playing Ren, last weekend I flew to Chicago and while returning on Monday evening, I saw the Chicago skyline from the air...the buildings I mean. And I instantly thought about City_Flying and I was like "wow 2 months of not playing Ren...I might suck now at flying"

This worried me a bit and so on Tuesday morning, I managed to play again and was relieved that I didn't suck at all. I played on a variety of servers to get back to speed especially on flying (my main thing) and killing/looping/squishing infantry using Apache/Orca.

I guess Overo noticed me sometime in the past 2 days on another server. My main nick nowadays is ATHE1ST.

Anyway, all SS from this game on Hourglass can be downloaded [HERE](#)

This shows some of the chat that happened between Overo and me.

btw, I cannot stand ANYONE falsy accusing me. Though this encounter was so damn funny my stomach hurts.
