Repeat the following phrase:

"Please consume fecal matter and expire."

When they figure that out, it roughly translates to "I know fancy words; that makes me smarter than you... now go eat shit and die."

If that fails, calmly argue with them for a few minutes and throw in some subtle trolling so that they Hulk out and undermine their own credibility by using caps. Nothing says "I'm right and you're a fuckwad" like being the one who's not yelling.

Or, y'know, you could just ignore the fools unless an admin takes notice. When that happens, calmly explain your position using your best "I'm writing a paper for school" typing and let the chips fall where they may. 90% of the time, a good admin will listen to the more reasonable player and kick/ban the douchenozzle.
