The point now is that I'm not a very good rigger and I don't know how to make a real complete character setup (what is the c_ag_nod_mgo.w3d, c_nod_mgo_.w3d for? I have no idea whats in there). So as you can see my rig is not the best one. That's why I attached the source of this model. Maybe someone can rerelease this as complete char setup with a better rig. I have no time and experience for that.

Rigger, please.

I like the model, looks very nice. Now renegade is at last enforcing an equal oppotunityies policy, do you plan on adding a Mobius in a wheel chair or something?
