San Andreas was far too complicated. too many girlfriends, boyfriends, etc to worry about, you have to eat sleep shit or you will randomly die in the middle of a mission, you have to go to the gym or your character turns to shit and can't fight for his worthless life, you can't understand half the shit the slack jawed fucks are saying, it takes forever to get all the stupid tags, shellfish, dildos etc unless you get a map to find them, and in general the graphics and soundtrack were shit (except rage against the machine).

TBOGT is win.
