On the other hand, in San Andreas, you'll never be able to hold up a hardware store, get five wanted stars, and tear away in a golf cart being chased by feds while you're blasting Anthrax's 'Madhouse' on V-Rock.

Now that's gaming gold.

The hardware stores were pretty awesome, and I did love that safe house with the giant garage and and heli pad... but still SA has more.

The new GTA only has graphics to offer, the story line was ok, but short and both endings suck ass.
