yes I should of setup another bot instead of testing it on tmx. I was the one who made the modification in the first place so I didn't think it mattered. It wasn't some random person that registerd nicknames. Now im banned from everything related to tmx because of it lol. Even after everything I did for tmx.

Yeah,

Stealing our stuff.

Registering players name's without informing/asking us.

Joining on BRenBot exploits.

No one in there right mind, wouldn't ban you...

I'm glad people have seen the 'true blacky'.
