Azazel wrote on Thu, 22 April 2010 18:54. Clearly, you guys must be 'misfits'. You decided to try a mass rQ much like the Exodus/n00bstories split. Unfortunatly for you, some 'bug' gave Xpert the advantage and he quietly removed you all, before you could make a scene.

lololol, you sir, clearly must be delusional. You're quite happy to share banning info on other players, quite happy to give me tempmod in Ax and quite happy to take my advice. Now because I simply said 'you didn't get the attention you wanted' you decide to turn on me? Okay man. I guess you don't really know someone, until you argue with them eh.

My main point for posting here, is to alert people of Blacky's 'not so nice attitude'.

Mass rage quit and Xpert having an advantage? Do you seriously think for one adolescent minute, that I did not know what would happen? You're a moron if you think otherwise.

For the most part personally he was an ok guy. Until he stabs you in the back. Until he treats the community like shit. Until he does all that and refuses to even see himself as the fucking problem in that place.

As I already stated: Make one of your own damn topics you little cheater. I'd rather listen to HaTe prattle on than a joke of a moderator dragging me into some stupid bullshit.
