ApacheI've met some pretty incredible players off this forum... Players like Kingdud, MetroidFX, Hero2022, Sldghost, and others... I'm sure that they could whip up a pretty sweet team if they put some effort into it... Just that we honestly don't care about your little mafia, so go and sit in your flame infested forum and leave us alone.

WL is and was a joke of a clan. 1000 hours of beta plus the solo missions were their only advantage back when the game came out. the guys you said Kingdud, Metroid....tried to come back to renegade about 6 months after and realized that people knew how to play the game and they got bitch slapped around for almost all clans so plz if your going to mention good players do so at least 5 months after the game came out because "good players like them" had an advantage which was that they knew how to play the game before it came out for the rest.

Now Ack as this thread says if you have that you are a super skilled player for laddering whore and playing public games all day you are so damn wrong as my last post said "ladder wh0r3es aren't and will never be good players, they are just that point wh0r3s. Playing another clan as good as you...That's when your true skill comes up".
