crysis992 wrote on Wed, 28 April 2010 10:17Heyho,

i have a little problem, im working (again) on a map and im working now on the tunnels i just extracted and loaded the tunnels from field, and modified them a bit. But now i want to set a texture on this tunnel model, But it stays white idk whats wrong.

I did it like the rest of the map

Stage 0 Texture checked, and Display checked. and then i pressed Assign material.

But the damn texture dont show up :/

You probably need to put a UVMapper on it of some sort, sometimes when you use editable mesh on terrain it needs you to put a mapper on it before it'll display.
