what names do you use on those servers, see if i can recall you?

i know n00bstories would appreciate some more good players. They have a smallish team and could use you im sure

check them out at <http://www.n00bstories.com/> and head onto the forums

im known there as sgipo/flamingunz

jelly also has a team, but they have a big list so its probably not worth signing up for them
