Lib Dems got 6% less of the vote than Labour, yet had approx 5 times less seats than them.
That's pretty retarded...

But now... The lib dems who came Third in the election are now jointly in power with the winners due to the hung parliament and the coalition they formed.

This means that 1st and 3rd in the election are the winners, and second place got bugger all. Infact, the leader of the party that came Third is now deputy prime minister.

That's even more retarded!

What the hell happens if Cameron is killed while war breaks out? We've got the dude who's party came Third in-charge?!?! WTF?
