Spoony, let it be clear that I do not necessarily disagree with you, but your style of arguing is highly annoying in my opinion. This causes a lot of people either to ignore you, or bash you. Which is in some cases really a pity. Defending your own arguments makes sense, but try to do so in a manner that does not directly mean the other is wrong and stupid. This goes in particular with opinion pieces like these.

After what you just had to admit in the private forum, I'd just stop talking right now if I were you. Trust me, it won't look good for you at all if everyone knew exactly why you made your outburst. It's certainly more damaging than anything you could ever say about me.
