EWD can invoke the majority of TT's opinion on his side if he likes, but let's not kid ourselves... if it was a question of the overall Renegade community's opinion, well, sparks would fly. I doubt it.

Spoony wrote on Sat, 15 May 2010 14:15 i suppose i shouldn't have used the word "point". it wasn't the end, it was the means. A means to what end? It is not a means; I only wanted to show that I do not share your judgement of what EWD said in the private forums. I think I made that clear, so I'll stop posting now.

Spoony wrote on Sat, 15 May 2010 14:15 take a good look at what's just happened here, stealtheye. if you still think EWD doesn't have anything to be ashamed of, then i gravely question your judgement. Go ahead and question my judgement; I question yours.
