Never said or thought I was, so there's no danger of "kidding myself".

Quote:You where for CW.cc, but I've heard that is dead.
Yes. Undetectable cheats killed it. (not the only cause, but by far the biggest cause) 0x90 killed it.
Don't you ever dream of forgetting that.

Quote:So basically, go screw yourself until you can find a majority that does actually support you and your opinions.
if i cared about "a majority" being on my side, i suspect i could achieve that in the general community here simply by saying what was just revealed. on that basis, you can be thankful that i don't give a shit about majority being on my side.

Quote:Oh btw, I forgot, I wasn't the first to suggest that, that was mac/Crimson.
i don't remember mac or crimson deciding to publicly turn against a fellow TT member for the sole purpose of helping this odious plan succeed.

Quote:So you may disagree, but as you might understand, you have basically half if not more of the TT team against you.
well, you're coming down a little, you previously said "I suspect I have the trust in that matter of the full team besides you.". even so, if i was the only TT member who could see the extraordinary folly - and danger - of this concept, that alone would justify my presence on the team if only to talk some fucking sense into the rest of you.

Quote:Also, you shouldn't have mentioned PRIVATE arguments on a public forum.
you're in no position to talk about what someone else "shouldn't have done", you really aren't.

Quote:Now you're fighting an unfair fight because I cannot respond to your accusation.
oh, my. *I* am fighting an unfair fight. are you kidding? i could destroy your reputation in a moment by publicly revealing what's just happened here. be thankful i am putting myself at a great disadvantage by fighting fair.
