some of the things you've said about 0x90 along these lines are not just ridiculous, they're insultingly ridiculous

From you yes.

Why didn't this topic stay locked? It has no purpose.

I requested it to be unlocked, as in all honestly, not everyone got a say in this and nothing was resolved, which would mean another topic in the future a-long the same lines possible. I'm sure that I'm not the only one that requested this tho.

I agree quite strongly with George and Spoony, He shouldn't be welcome here even tho he helps with RG problems (once every blue moon). It's exactly like Spoony said, A terrorist would be welcome in city A because he's done nothing wrong but in city b he'd be 'wanted for crimes'. If he's to be allowed here, then he does need to redeem himself in the eyes of the community and 'give something back' and attempt to understand the damage he's dealt to every rene-community in existance. The only points that I don't agree on is debating cw.cc issues and TT in general. This is about 0x90, let's not forget this.

edit: After reading a lil more, I wanna explain something. Jus because some cheat has 100+ downloads, does not mean that 1/3 of the community will be using it to cheat. Moderators will download it and test it with various anti-cheat and examine how it works etc. Jus thought I'd point that out.
