reborn wrote on Tue, 18 May 2010 21:09:09 What if by accepting him here it appealed to his better nature?

It's not a nice option for players here that feel his presence is an insult to them, but it's not like the community here have a lot of options (if any) to deal with Ox90 and his releases.

Community? It's barely a community anymore, just trolls and people looking for a bitchfest.

I wish people would put as much effort into TT as putting effort in posting in pointless arguments. TT would have probably been done by now.
