He secretly works for Crimson to screw up the community and then make her look like the hero?

I resent that.

Crimson is part of the TT team (pr) or something. So if 0x90 worked for her, why don't they have the source code to the new/old rgh? Please stop making up bs please. Hurry up n ban this fag and we can be done with it for good.

Oh yeah and have you not read what people have said? Banning him doesn't do a thing. He can make a new account, browse anonymously and/or use web proxies. Not to mention he has been very, very calm, honest and polite around here. If he was dropping the links to the cheats here - definately bad. He has done nothing of the sorts and "banning" him will simply require him to EASILY get around it. There's still no harm done to renegade by him "having an account" and having "0x90" show up in a post username.

It was a joke. Anyway I think azazel was talking about banning me

Well sorry..I've been hanging around Jelly irc too much dunno what a joke is anymore it seams. and no to my knowlage you've never cheated, so why would I want you to be banned lol

I realise that he can 'browse the web anonymously' and/or create new accounts which is sad, but the facts are no attemps have even been made to ban him here. As George said, we should make him unwelcome at every corner and tell him to fuck off for good.

I was very tired when I wrote my last post anyways, doesn't excuse it tho :S
