Quote:Also you ignored what I said. Just quoting the pieces you can flame on.
*just quoted the most ridiculous and insulting part of your post that needed rebuttal

as to the other part of your post, this line of "reasoning":

Quote:Also, towards the person that bashed TT somewhere in this thread: you, and exactly you and your kind of people are the type that make working on cheats much more satisfying than Anti-cheat.

... has already ripped to shreds

and this bit:

Quote:Since the AC has a much larger attack plane it's much harder to secure it against cheats. Besides that we're always behind, we can only respond to new cheats once they are released. seems barely even worth a rebuttal in the first place

Quote:Oh and I do care about the damage he has done, but I also know that he can do much more damage. Easily. For that reason, I don't want to disassociate him now. Until we have fixed these huge gaping holes in Renegade security we can only be thankful that he has done so little regarding cheats and hacks.

do yourself a favour, don't pretend you care about the damage he's done. you've already tried to use some of the damage he's done as an argument against those he did it to.

Quote:AKA, you don't know what you're talking about regarding renegade cheats. that's OK, you don't know what you're talking about in terms of honesty, diligence or loyalty, which is a much more damning indictment.
