lol zim

i dont play places that have shitty mods, i dont get involved so i wouldnt know.  
also i dont give a shit if he is polite or what not

you go about making a point telling me how dumb i am, yet you cannot offer a reason why he should be banned

anyone can give a reason, maybe he has a rabbit for a pet, i fukin hate rabbits therefore he should be banned

he makes cheats and therefore should be banned

its not in the rules you retard. I still visit these forums as Gozy does a good job. like i said, i wouldnt be involved here if the mods couldnt do their job.

you go about saying he should be banned for NOT breaking the rules, yep thats the best logic ive seen all day

congratz
