by the way, the reason I said that is because you guys gladly overreact to someone posting to a site that has buildingbars, but refuse to ban (and infact, happily welcome) a known cheat maker (as well as someone who has fucked up the competitive side of Renegade entirely).

Let's not forget, removal of PM rights for people suspected of having building bars. I'm more than willing to bet 0x90 has PM rights.

^this is basically the whole deal.

You can't really argue against this.

I mean I can even remember some contributing members that had their pm rights revoked and nowadays wont contribute anything anymore.

Besides having drama fun that is.
