Yeah Daft punk live is something I want to do as well, BADLY. Will probably be 2940270923508237 times to expensive or sold out, but still... I want!
I really dislike the fact that Daft Punk doesn't seem to have any roster or w/e on their website.

They are making 24 tracks for the movie Tron. And are making appearances in the movie as DJ programs.

That's still not live
