Okay okay, so I'm an old player coming back to the game.

I've played on numerous accounts but the most known had to be angelfan1

So, I read the steps for online play, and I tried to start a game.

I realized that it said only 9 nicknames per serial key. And realized I exceeded the limit.

Would there be any way where I could possibly clear all nicks on my serial? So I could create a new one?
