How about a community poll to ban certain juveniles like IceSword7 and any other degenerates he brought with him (i.e. x50c3nt, Hydro, n00belit3, xC4pRoX, SloMo, etc.)? That way if they want to blame anyone, they have to blame everyone. Personally, I hate racism myself and it's one thing to insult something someone says on a forum or their on-line persona, but I think it's unacceptable to insult a person's race or physical appearance. Maybe all of them haven't done so here per se (yet), but they brought it here with the link to their forums and I for one am tired of their BS.
