Since E3 was this week, I was curious to know what games everyone is looking forward to. I am looking forward to the following games:

GoldenEye 007 – Wii

Donkey Kong Country Returns – Wii

Portal 2 – PC

Star Wars: The Force Unleashed II – Wii

Conduit 2 – Wii

Star Wars: The Old Republic – Wii

You can find links for those games here.

I am also really looking forward to the Nintendo 3DS.

PS. Games are in no particular order.
