It's a perspective, not a genre of HURF DURF I SHOOT U FIRST LOL I WIN multiplayer bullshit. Or, rather, it SHOULDN'T be that, but it seems to have become that.

Spoken like a true non-FPS player.
Says the one who doesn't even play Renegade.

Not anymore, no. There's only so much of the same a person can take before the game gets stale. There's a reason StarCraft maps are used competitively for about two or three seasons (1 year, ish) and then phased out.

Anyway, how is me not playing Renegade relevant? Most of these forums don't play Renegade anymore, and while Renegade may be an FPS, an FPS is not necessarily Renegade.
