Of all the people to post in this topic.

Not to come to Azazel's defense or anything, but the video seems suspiciously fraudulent. During a small game with nobody else to corroborate the story, Az (Or someone using his name) just happens to go afk and happens to leave his hacks on and happens to get frapsed, all by someone who seems to have a reason to assassinate his character. You should have gone ahead and thrown in the Alanis picture. It would have improved the quality accusation quite a bit. I've not long come back online, but it seems the ips n stuff checks out.

Especially now he's been removed from the NS modlist.
