another thing that adds to a team's lead is the vehicles and characters it destroys as well as damages, and a team that can keep the field clean while hitting the other team's buildings will maintain that point lead

it's generally smart to destroy everything that moves before you start laying into the buildings, so even if they manage to get something just kill it and carry on blowing the base to shreds

there's no such thing as too many points, especially if you're trying to make a point

20k Pts in 35 minutes? Hats off.
