Ethenal wrote on Fri, 30 July 2010 22:44 Seriously though, I wasn't aware he even existed until he got banned at Exodus... and THEN he went to n00bstories. So I have no god damn clue how you could have called him that far back.

I'm not sure why you guys keep telling people that. He was around and being temped well before you guys banned him. He didn't become a mod till after which contrary to your enormous egos had nothing to do with you guys. We took a chance on the kid because he did bring a lot of good to NS. He turned around and burned us (along with like 3 other communities). Oh well, no pain no gain I guess. Considering the amount of success we have had attracting quality people I'm ok with one apple turning out to be rotten.

I wasn't meaning it to be detrimental, I was under the impression he never even appeared at n00bstories until after that. I had no idea he was there previously. And yeah, he burned god damn everybody... especially after his crusades against cheating...
