Not sure if people remember, but I started some pretty major beefs back in the day (which was of comedic value to me, but I guess actually offended them) with the likes of MWRright, Ballstein, etc. Ultimately, I ended up playing against them, won, then posted the results on the forums and drove them away from here and Renegade

i think neither of them even played 1v1s or anything of the sort so there's no reason they should have beaten you

i get the feeling that you keep saying this everywhere because we don't let you play on the servers

Wyld was not a competent mod in my eyes; he was literally afk for two years (due to personal issues) and would only come back to do shit that drove everyone else crazy

like atm'ing players that were known to break rules and abuse other players, and he ignored everyone else when they explained it to him

what other competent mods and admins are on your list?

i'm quite certain that our mods and admins are competent because you're not allowed on the servers - we're doing the right thing

clanwars players moved on for the most part; you can't expect them to stay playing in a public server for 6 years straight  
many of them still do

<http://www.n00bstories.com/forums/index.php?t=msg&th=12650&start=0&id=8926>

never had such a raging dumb douche halfwit who didn't know how the SBH suit works in-game yell so much xxxx about "cheating" at me. the thread is funny now.

that's ridiculous; the guy thinks too much of himself

you should have laughed at his ingame rage instead of getting upset by his accusations, but you handled it well
