@reborn, no but ive played spoony countless times after that lol sometimes he leaves in the middle of a series, but he beat me on field pretty good a couple of months ago (tho he never wants to play them these days).

trooprm02 wrote on Wed, 23 June 2010 11:09Hey guys, its been around 3 years since I was active on these forums but have come back to renegade for the past several months now, so Crimson kindly unbanning my account   Im sure most of you remember me as someone who would start alot of shit (and maybe I did) but I was just fucking around most of the time and just got taken too seriously I guess....

Anyway, first off my apologies if anyone took offense to past beefs but now im focused on being more productive than anything. Even back then tho, the renegade-wide IPBot that every major server currently uses was actually my idea (based on a global wolbanlist), and you can still find me in readme's for various other stuff (BRenBot, dead6re's, etc).

/essay, you will see a few big releases from me in the very near future and I still do play very competitively, so if you are looking for a game, you know where to find me
