I know its bannable ack dosn't like weman (unless you count crimson, which I dunno who would be dumb enough to call her a woman). This isn't like clanwars forum where you get freedom of speech. On this forum your always walking a thin line. I used that pic for my avatar on clanwars forum and no one got all crazy and said it was bannable, and the admin didn't take it off. Those girls are clothed and not showing anything bad, Its just ack enjoys the company of men. At least on clanwars they let you set your own avatar and not some gay ass icons from tib sun, red alert, and renegade. I can't wait till these forums die.
