Im a bit bored of leveledit atm but i still got a map laying here which i would like to see finished.

It is an island idea and the mission is supposed to be played as Soviets.

There should be 3 Hind Helipads and 2 Chinook Helipads and some silo's maybe (the vehicle versions).

The gmax file, w3d's and scripts.dll are all uploaded here:

Is anyone interested in setting it up as a Co-op map?

xD
