We're making it worse.

Well, if the plan to make it give 2, then 3, then 2 (2.5) then I agree. I obviously haven't look at that code personally, but the FPS drop sceneario doesn't make much sense to me because ive played Renegade on both extremes (really low FPS long ago, and really high FPS now) and haven't noticed any difference

Anyway, this doesn't matter if you guys are planning to patch the .dat/.ddb file to make sure its kept at 2

ps Evilwhitedragon, you can take me off your ignore list now instead of always forcing my posts to show lol....
