Oh damn, I thought you were trying to split one output to 4 speaker sets LOL.

If that's the case then you could stack the 2 way splitters, or this

http://cgi.ebay.ca/Belkin-RockStar-5-Way-3-5mm-Splitter-4-iPod-iPhone-MP3-/380235202879?pt=Other_MP3_Player_Accessories&hash=item5887c8c13f#ht_2091wt_911

TBH I'm not sure how well this is going to work at all without a proper receiver with separate inputs. The signal might still be too weak, distorted or whatever. You can get the 2 way splitters for 99c with free shipping on ebay, not really a financial gamble.
