I think it's hilarious that 50's whole argument is that I will ban him for disagreeing with me, and that banning him will prove his point. So that means if I don't ban him, then he's proven wrong. I like that option.

But the moment he posts pornographic images, is exceedingly abusive, or spams... basically breaks any of the forum rules, he WILL be banned.

Java and Warranto have it right. I couldn't have said it any better.
