Sorry, but I can't find Microsoft Visual Studio 2005 Professional or Express, I only have VS2008 Pro, can you give me a link for old VS2005?

In Visual Studio 2008 it send me an error:

```
1>dllmain.obj : error LNK2019: unresolved external symbol "int __cdecl
__CxxSetUnhandledExceptionFilter(void)" (?__CxxSetUnhandledExceptionFilter@@YAHXZ)
referenced in function _NotifyHookUnhandledExceptionFilter
1>.\bin\debug\scripts.dll : fatal error LNK1120: 1 unresolved externals
```
