Somewhat. Honestly I just find it lame they called it C&C; that and it had little to no story. The gameplay itself is pretty damn well done, though, and feels more like C&C than C&C3. Which is sad...

Also, I hope they give whatever this game is more than 1 year of development time. That's also why C&C3, RA3, and C&C4 got shafted so damn hard. And why Tiberium was cut.
