GizbotvasDeathgodFUD tactics have spread to other servers, I see. Good work.

Let us all take time to thank our gods that is not the case. FUD server practices are inexcusable.

This is a different story, Icesword is a foul-mouthed, trash-talking idiot who has this weird sense of entitlement about him. "I'm here so why isn't everyone doing what I say and worshipping me?"

Not only can't we take Icesword seriously, he gets owned in every match I have seen him in. No doubt there is a lot to this story Icesword has left out. I wouldn't even blame FUD for banning him.

Funny i have only played with you once in the Pits. And i found a sniper rifle and camped at the back of ur base. And i distinctly remember sniping you over and over again because every time i would kill you, you would say something stupid. So you cant say I get owned every match uve seen me in.

And i think its funny i played in the FOD server all the time without problems Untill now. wierd no?

O and btw im not banned from FUD i joined the other day where there were no mods.

It gives me this error message when i try to register on the FOD forums...(some debug crap or whatever)
