Wiener wrote on Fri, 29 October 2010 03:46: Its actually the older ones who keep up older games. Most younger players move on to newer games more often or focus on something stupid called RL....

Most 30+ have their daily routine:

Job

Back home and kisses to wife and family

Gaming

Same procedure every day

Can't say I'm 30+

But that is the only way of life! you know, replace Job with University and kisses to wife&family with .. well, nothing () and you get me!
