```
mysql --user=root --password=root mypassword
```

Retruns the error, Access Denied for 'root'@'localhost'

-----

I've just tried the comand you gave, and it worked with a bunch of commands, and now the program trying to use the database seems to be working too...

Not sure what i was doing wrong with the above command i was giving it... Very bizarre indeed, but it's sorted now, thanks guise. :3
