bradley, you are by all means a terrible friend.

What are you thinking??? What is going through your head???

FORGET cussing and bad words, that's the least of your worries! If you let your friend play this game, he will be actively involved in virtual warfare. Virtual offensive statements are the least of your worries now. He will be actively KILLING, DESTROYING AND BLOWING UP OTHER PLAYERS!

This game is rated M for mature, so if you can't take being called a fucking faggot gook-loving shit-eating buttloving loser, you should walk away (or grow some balls)!

What you need to do is set your friend up with the Sims, or something along these lines.

Thanks

edit: lol! if only i had a penny for every constructive statement i came up with!
