and i said no because -a- i had better options and -b- i didn't trust you

LOLOL, man they are right...you make up so much shit even you start to believe it. You didn't trust me? Is that why you PM'd me back the next day thanking me, telling me what settings you wanted, and even linking me a copy of the pointsfix SSGM plugin from a private BI FTP before it was ever released to the public (how else would I have gotten it before SE made that post in the FDS section?).

fucking retard, im sure BlackIntel's gonna appreciate you giving away links to files on their webserver before they release it themselves....if thats what you do for people "you don't trust", I can only imagine what you do for people you do.
