Goztow wrote on Tue, 30 November 2010 15:30 Brandon, you should read people's posts: this was not a leak by a member of a staff, rather a case of "bad place to save this kind of information". I'm stunned a coder can make this kind of mistakes myself, but it happened unfortunately.

Its called "I didnt know anything about the default settings of the web site in question and didnt know of anything I should have checked into re security"
