Windows XP

Geforce 2 mx/400

512mb ddr ram

pentuim 1.8

Everything ran fine,now just a couple of maps (lightwave,Tib pit 3)ones with custom textures...(havent tried many other custom texture maps)..seem to crash after playing for about 1-2 mins...I played these maps about a week ago and they ran just fine...now all of a sudden they are crashing on me...even in 1 player LAN

Westwod maps run fine.
