Quote: not only is spoony the best player, he is also a better sniper than me even tho half of clanwars thought i cheated my ass off when i sniped  
do you ever stop lying? what's with this metamorphosis into simpee?

i never said i was a better sniper than you. i never said my sniping was all that exceptional.

Quote: only thing i remember from that walls fly game was me killing 3 of your teams sakura's, u got lucky a couple of times over the last year and now you think your real good  
it's true i wasn't the sniper at the beginning of wallsfly, someone else said he would and i usually prefer being a light or apache anyway. it's also true you killed our sniper, i'm not sure how many times, but maybe 3. then i get a sak - because it doesn't look like our sniper is getting the job done - and kill you. lucky? call it that if it makes you feel better. and no, i don't think i'm "real good" at sniping. if i did, i'd probably do it more often. i do it only when it seems necessary, which isn't often.

but all this was a response to you saying "your inf is so bad my little sister who never played ren could beat you". well, again, if this makes you feel better about getting sniped on wallsfly, you're welcome to it. i don't say my pistol or sniper is exceptional, but it doesn't seem too bad... certainly not as bad as you just said, but you're obviously a long way away from thinking straight.

Quote: just like u think your all that now because u've been raping public people for way to long without anyone good around to match your amount of renegade dedication to win every pub game and here's the excuse you were making before we even played the lobbywars. again, it's obvious you just can't handle how much better i am than you in public-style games. "to match your amount of renegade dedication"? i play the way i like to play. you want to snipe all game without caring whether the team wins? fine, have fun, but don't be surprised if you aren't considered the best player because of it.

Quote: many people have told me that i was the better player in TC and that was after that topic YOU made which u bring up nearly every post u make  
wow, hitman, you make a bucket of pigshit look intelligent. why do i have to keep repeating something really simple?

the only reason i bring it up is to point out that you're completely changing not just your current opinion but all your previous ones too.

simple: you said that i was always better than you in clanwars. now you say you were always better than me. i really don't give a shit who was better, i'm just pointing out the fact that you were either lying then, or you've completely lost your mind now. i'm betting it's the second option.

so many people told you you were better than me in TC. fine. you disagreed with them.

Quote: sure enough things concerning your ego trip will become far worse and soon you will say something among the lines of "i was the key to succes in every single clan i have been in" lol  
do you ever get tired of lying? is the fact that you can't refute anything i say hitting you SO HARD

that you feel you have to make up things i never said?

Quote:i didnt need u to beat the best clans out there, but please do call me a pathological liar yes, i do call you a liar, but only because you've been conclusively caught lying in this thread, and you're still doing it. i never called you a liar before, never had a reason to.

Quote:and dont even talk about "you and i" please i rather not be mentioned in the same sentence as you anymore

i'm equally astonished at just how far off the deep end you're going right now, but i might as well have brought up our success in 2v2s if it's a counterargument to you saying how terrible a player i am. if this is the best rebuttal you've got, that's good to know.

[quote]and dont twist my words spoonerd, what i said in that topic was EXACTLY this: " sniper: simpee, hitman and spoony has sur. question was best sniper and you named me. i didn't say you put me top, i said you named me.

Quote:and if my judgement is clouded, then so is yours, u put nunega in top 5 on that list while he was absolutely overrated, but u probably didnt see that since u were to busy trying to keep simpee/clear off which were his teammates ALL THE TIME, i remember playin nunega a couple 2v2s after, his first time ever without clear/simpee i suppose and it didnt go quite so well as it used to, to say the least

i always considered him an unusually unfair player, though he was probably better than you think. it's certainly true he only wanted to play with simpee and clear and wouldn't dare play us with anyone else in CAG, as i said on teamspeak many times... perhaps you've forgotten that.

Quote:btw lol @ this: - nader (just so hitman can win SOMETHING)

arrogant bitch...

you can't see what a joke that was? do you remember when i posted the video of the border official stopping the car with all the mexicans running out of it, and said "here's tunaman defending the tunnel on islands"? my first thought was to say hitman, but i figured it would upset you.

Quote:just let your ingame skill talk, not all the bullshit u write here spoonerd, you have never ever proven to be better than anyone here on this forum so im quite willing to play u some games and get to the bottom of this, just to hurt the ego u developed

here it is, ladies in gentlemen. in this one sentence you have the two things it really "comes down to" - firstly you can't handle the fact you've been proven wrong about almost everything you've said whereas you have not disproven a WORD of mine (not to mention the number of times you've been caught lying), secondly the big difference that i noted a couple of posts ago, that it's never occurred to me to play a game for anything other than its own sake, to "prove" something. the idea that a forum argument might make me so angry that i have to play renegade to make myself feel better, that's completely alien to me. it's very much at the core of your game, isn't it?

Quote:if you want to hurt spoonys feelings all u have to do is say techd arts are imba and infantry is underpowered on pointfix. i didnt realise it at the time, but spoony is emotionally connected to the pointfix

whatever makes you feel better about the fact you lost every single pointsfix argument against me, no matter how many times you intentionally tried to lie to score a point.

and while i have your attention again - though i thought you'd already left this argument in a rage at losing it - why haven't you apologised to me yet for the UNBELIEVABLY pathetic thing you did on the jelly forum, you lying, cheating little bitch?

Quote:and thats why hes always been so hostile towards me.  
i've never done anything wrong to you, despite the unbelievable provocation, you lying little bitch.
