and u think i/whiskey cant do that with a light tank or an mrls? ;/ i have even killed entire bases on my own with an orca/apache which i am simply just not good with, never cared to be either, i was always the designated sniper in clanwars eitherway

and with the tactics not involving skill i meant tactics aren't an actual skill like being good with an apache or whatever, tactics are thought up in your head and isn't an ACTUAL piece of gameplay, if u know what im gettin at
