u act like its so hard to lead a big team, u just got to create order and make sure people are willing to listen, i know enough about strategy and everything involved, i am 100% sure i could lead a team that is willing to listen and has SOME individual quality to victory against just about anyone, if you really gotta see it, then im just gonna say: set up a match and let me lead it for the first time in my renecareer, it really cannot be that hard.
