i went to http://renchat2.westwood.com/ and guess what, i got an (i guess) error msg:

" It Worked! The Apache Web Server is Installed on this Web Site!

If you can see this page, then the people who own this domain have just installed the Apache Web server software successfully. They now have to add content to this directory and replace this placeholder page, or else point the server at their real content."

they arnt gone, just using a mew server software. they already have somethings back up, like the clan admin (
http://renchat2.westwood.com/cgi-bin/cgiclient?ren_clan_manager&request=expand_template&Template=index.html&SKU=3072&LANGCODE=0), and clan info pages (ex:
http://renchat2.westwood.com/cgi-bin/cgiclient?ren_clan_manager&request=squad_info&SquadID=923621&SKU=3072&LANGCODE=0). just wait, i bet it will b back soon!
