Oh well, at least some regression bugs got fixed.

Perhaps if the right people were notified about this event we could have helped out. I don't read this forum on a regular basis and wasn't made aware of the test until someone pointed it out to me just now on IRC

Maybe next time

I tried to contact you and others on IRC at the time. Hell, Liquid was even there...

Maybe you should notify people in the Server Owners section like the test before so they'd be more aware of this?

Also.. the point of scheduling another test is to.. have another test?
