Most of it IS really girly. But there's some nice serious ones. Such as:

Death Note, Ghost in the Shell, Cowboy Bebop, Trigun, Monster (Haven't finished watching it but all of what I've seen is great so far), Shiki (If you can get past the FABULOUS designs and weird hairstyles), Detective Conan/Case Closed (Same anime, just called Case Closed in the US, but they stopped dubbing it in English due to shitty sales... so as much as it pains me to say, it might be better to start off with the Japanese version *ugh*), and a few others I probably forgot.

also, on the (really low chance) you're into manga, JoJo's Bizarre Adventure is the best fucking thing ever. FABULOUS characters who are also manly at the same time (Except Giorno, Giorno's just a faggot), tons of lulzy references to music, some of which are hilarious (A villain named Vanilla Ice), and it's been running since the 1980's until now where it's STILL running.
